Nature

Something's not right! A hedgehog without spines? Flowers without petals, fish without scales, frog without tongue? Small but very important details are missing from the cheeky illustrations. Children learn to draw by filling in the missing elements and finishing the pictures. Once the hedgehogs, flowers and fish are complete again, it's time for the crayons. The cute pictures can now be coloured. Double colouring fun for children from 4 years.

Animals

Giraffes without spots, piggies without tails and rabbits without ears? That's not possible! Therefore, the children may grab the pen and complete the missing motifs. The first drawing steps are easy to learn and in no time at all the animals are complete again - then everything can be coloured. Double colouring fun for children from 4 years.
