## Mirror Images for Kids

### 7+ Years

Many beautiful halved things! With the colouring book „Mirror Images for Kids“, children from the age of 7 learn to draw and develop a feeling for proportions, symmetry and geometric shapes. The half picture can be finished with the help of the small grid. Once the motif is complete, it can be beautifully coloured in. Double colouring fun with 30 motifs such as unicorn, helicopter, bat and fish. The book includes helpful instructions for the children, to simplify the experience of completing the pictures!

### Title Information

Category: Colouring Books  
 Age range: 5+ / 7+ years  
 Series: 2 volumes  
 Artwork: Full-colour illustrations  
 Format: SC, 64 pp, 16.5 x 21.5 cm

5+/ 7+ years

## Mirror Images for Kids

### 5+ Years

Something is missing! Only half of the beautiful pictures in the colouring book are drawn, the other half must be completed. Large grids help children from the age of 5 to draw the motifs correctly. Once the dog, cat, mouse and penguin are finished, the pictures can of course be coloured in. Lots of colouring fun in one booklet, that helps children develop a feeling for geometric shapes and symmetry along the way. The book includes helpful instructions for the children, to simplify the experience of completing the pictures!
