

# My Most Beautiful Colourful Colouring Book

5+ years

## My Most Beautiful Colourful Colouring Book

### Space

The planets, the moon and the stars fire children's imaginations and provide plenty of creative colouring material. There is a lot to discover on the space station, during the moon landing or during a walk on Mars. And aliens? Of course there are aliens, too.

Each motif extends over a double page. Children from the age of 5 can practice colouring and improve their fine motor skills. Large backgrounds such as the blue sky or the green meadow are partially pre-coloured and simplify colouring.

### Title Information

Category:	Colouring Book
Age range:	5+ years
Series:	4 volumes
Artwork:	b/w and 4c
Format:	SC, 32 pp, 20 x 28 cm

### Key Selling Points
