

A journey through the Universe

8+ years

Discover Space!

A Journey through the Universe

Content:

Just reading was yesterday - this book takes the children on an unforgettable journey into space! After the rocket launch, the space explorers stop on the ISS, experiment with weightlessness, visit the moon and marvel at planets and stars. The travellers will also take a trip back in time: back to the Big Bang, the beginning of the universe. Exciting factual texts and elaborately designed book pages show the uniqueness and fascinating beauty of our universe. Small experiments and pictorial comparisons help to understand even complicated facts. The countdown has started - the spaceship is already waiting!

Title Information

Age range: 8+ years
Artwork: With numerous photos, illustrations and infographics
Format: HC, 128 pages, 27.7 x 28.5 cm

Key Selling Points
