STINKERS SUCKERS SLIMERS

Stinkers, Suckers, Slimers
22 Fascinating Creepy Animals
HC, 96 pp, 23 x 27.8 cm, 4c, 8+

Dogs, cats, squirrels and bees are cute and every child likes them. But there are also many animals that don't win any beauty contests and struggle through life without the cuddle factor: they are slimy, creepy, scary or simply disgusting. However, these animals do incredible things for their survival, and ours.

Vultures protect us from nasty pathogens. A small crab produces a loud bang when threatened, which even alarms submarine captains and causes glass to break, and the hirudin produced by slimy leeches inhibits inflammation and relieves pain. Reason enough to give these and other heroic animals a stage and honour their outstanding talents and characteristics.

- ▶ Includes many specials such as "The deadliest animals in the world"
- ▶ With amazing statistics and unique graphics that have been honoured with numerous awards

The author: Katja Trippel

Katja Trippel is a freelance science and travel journalist and has always been interested in everything that lives in fields, forests and meadows.

The illustrator: Ole Häntzschel

Ole Häntzschel is a graphic designer and illustrator and specializes in the design of infographics. He uses these to clearly explain complicated issues. They are informative works of art for which he has already won many awards.

KNOWLEDGE

On the Trail of Knowledge
40 Spectacular Stories from Science & Research
HC, 144 pp, 23 x 27.8 cm, 4c, 8+

Young readers go on exciting research trips and gain an understanding of famous inventions, adventurous expeditions and fascinating discoveries. They sail across the sea in a raft and take part in excavations. They enter the "mini-world" of the smallest particles and the big question about the origin of the universe. On some pages, real criminal cases and their relation to science are explained – like the theft of the Mona Lisa.

Are there extraterrestrials? And who will build the longest paper bridge in the world? An amazing and entertaining book about the stories behind famous discoveries in natural sciences, history, arts and culture.

- ▶ Exciting stories about research and inventions
- ▶ Extra special: Each chapter contains a research assignment, e. g. to check fingerprints, conduct amazing experiments, decipher secret messages and solve tricky riddles

The author: Dr. Volker Kratzberg-Annies

For many years, Dr. Volker Kratzberg-Annies was in charge of public relations at the German Aerospace Center (DLR) and the European Space Agency (ESA) and, as press officer, supervised numerous astronauts. Today, he is responsible for promoting young talents at DLR.

Vol. 19 The Dinosaurs attack!

The astronauts and friends Little Major Tom, Stella and Plutinchen are travelling to Mexico to take a close look at the Chicxulub crater. The meteorite impact that formed the crater 66 million years ago is said to be responsible for the extinction of the dinosaurs. But are the dinos really extinct?

Each title: HC, 72 pp, 15,8 x 21,5 cm, 4c, 7+

Vol. 20 The Unknown Planet*

Little Major Tom, Stella and Plutinchen explore a newly discovered exoplanet. But this strange place reveals unexpected dangers! The entire surface is littered with splinters and their spaceship Space Racer is damaged. Will the three friends manage to escape the inhospitable exoplanet?

Little Major Tom lives with his friends on the space station Space Camp 1 and loves to explore space together with them.
