

From Mammoth to Moon Landing

An Amazing Journey through the History of the World 8+ years

From Mammoth to Moon Landing.

An Amazing Journey through the History of the World

All epochs at a glance!

Who was Cleopatra? Did Stone Age people really munch on popcorn? And did every medieval castle have a dungeon? With this book, curious readers can embark on an exciting journey through time. The Bronze Age and the Roaring Twenties, the discovery of America and the Cold War: easy-to-read texts, photos and humorous illustrations provide astonishing insights into the 38 most important epochs of world history from the first humans to the 21st century. This book answers all children's questions about food and drink, faith and religion, everyday objects and buildings. For fact fans, there is a timeline for each era with the most important historical dates. History in the most exciting way!
